APPENDIX A – Site Plan

APPENDIX B – Photographic Record of the Findings

1.0 INTRODUCTION

This report has been prepared from notes and photographic evidence obtained by a visual inspection of the below-mentioned areas. Project Solutions Pty. Limited has compiled the report acting on behalf of TSA Riley Pty. Limited.

The report aims to record the existing condition of the public and Hospital property deemed to be within a potential zone of influence prior to the commencement of works associated with the Stage 1 -early works of the Greenwich Hospital redevelopment.

The report has been compiled in accordance with condition C4 from the Development Application no. **SSD-13619238**.

In summary: -

<u>Engaging Company:</u>	TSA Riley Pty. Limited
<u>Contract Site:</u>	Greenwich Hospital – 95-115 River Road, Greenwich NSW 2065 Lots 3 and 4 DP584287
<u>Date of Survey:</u>	10 th September 2024
<u>SSD Number:</u>	SSD-13619238
<u>Areas Surveyed:</u>	<ul style="list-style-type: none">📷 Greenwich Hospital - internal access roads.📷 River Road – Public domain – area adjacent to the substation works.📷 River Road – Public domain – area adjacent to the existing site access road.📷 St Vincents Road – Public domain – area adjacent to the existing site access road.📷 Boundary fence common with the residences along the western boundary (as seen from the site).📷 Boundary fence common with the residences along the southern boundary (as seen from the site).📷 Area of the existing roadway upgrade to the NW of ‘Pallister’.📷 Access road from River Road and St Vincents Road to the areas of work.

The particulars set out in this report are for the exclusive use of TSA Riley Pty. Limited. We accept no responsibility as a result of the use of this report by any other party. This report shall not be construed as a certificate or warranty of the areas surveyed. Refer to the disclaimer within the report.

2.0 SCOPE OF WORKS

The purpose of the report was to note and record the existing status of the public infrastructure, hospital property and other areas deemed to be within a potential zone of influence prior to the commencement of the stage 1 early works on the ‘Greenwich Hospital Redevelopment’.

The Dilapidation Report shall be used amongst other means to assess the responsibility for any damage and / or making good arising out of the construction works to the areas listed above. The report is to provide a basis of discussion should it be alleged that the construction works has contributed to damage to any of the surveyed areas.

3.0 SITE DESCRIPTION

Greenwich Hospital is located at 95-115 River Road, Greenwich NSW 2065.

The redevelopment of the hospital will allow for the “Detail design, comprising the design, staged construction and operation of the hospital and integrated healthcare campus, including:-

- Hospital and aged care building (with integrates basement carpark);
- Two serviced seniors housing buildings (with integrated basement carpark);
- Respite care facility;
- Use of ‘Pallister House’ for research and administrative functions;
- Demolition works and remediation;
- Site facilities, services and infrastructure works;
- Pedestrian and vehicle access & circulation;
- Landscaping, including bushland regeneration; and signage”.

Ref: Development application no. SSD-13619238

Note: this report is applicable to the Stage 1 early works component which will involve the following works:-

“Approvals

- Contractor to finalise approvals (if not already achieved) for services including Sydney Water (submit NOR and complete requirements to achieve s 73 certification), Communications approvals, electrical ASP3 and ASP1 approvals, Jemena approvals, stormwater connection approval through Lane Cove Council, and public domain road works approvals and finalisation of FER.

Site Establishment and due diligence

- Contractor to allow for site establishment across relevant satellite sites on the Greenwich campus.
- Allow for relevant investigations and due diligence including pot holing, services diversions etc.
- Protection of existing services, trees and other items to be included.
- Ensure hospital remains operational throughout Early Works with a demonstrated staging plan to be endorsed by HammondCare.

Electrical

- Install temporary distribution board to back feed the existing Hospital and Riverglen Building. The board will be used as the main switchboard at the commencement of the main demolition works for stage 2.
- Install new electrical pit, sized to accommodate new incoming consumer mains.
- Temporary generator requirements and location to be further confirmed.

Communication

- Install new temporary comms to the existing Hospital and Pallister House.

New Substation (2 New 1000KVA Kiosk Substation)

- Install new substation pad and retaining walls
- Install new pad mount transformers
- Install new screen with gate fronting River Road
- Decommission existing substation.

Water, Gas, and Sewer

- Divert existing water supply to Pallister House to enable proposed excavation for Stages 1 & 2 from the existing hospital kitchen/plant area.
- Upgrade existing gas connection to the site
- Install new sewer connection for the future healthcare building adjacent Pallister House. New sewer to be travel under the stormwater pipe across the access road.
- Install new authority water main connection at the corner of River Road and St Vincents Road as per Section 73 Notice of Requirements.

Fire services

- Demolish existing single fire hydrant adjacent to Pallister House, and install new external dual fire hydrant, and extend the existing fire hydrant main pipework to feed.
- Provide a new fire brigade booster assembly with a large bore suction adjacent to the hospital building's vehicle entry ramp and facing River Road

Stormwater and civil enabling works

- Maintain access to the loading dock during the duration of the works
- Install new stormwater treatment pit, stormwater feed in point for the healthcare building, stormwater pits and connect into existing stormwater line.
- Construct perimeter berm on the southern boundary, refer to landscape plans for hedge plantings. The main objective for the berm is to support the hedge planting and provide privacy screening to the neighbours. Berm layout refer to landscape drawings.
- Proposed road realignment and tie into existing levels where relevant.
- Make good pavement on completion.
- Stormwater investigation and rectification for Pallister house (to be confirmed following site visit with HammondCare)

Landscaping

- Review VMP (travers plan) and TBLA landscape plan to ensure coordination, where discrepancies arise, raise the issue, and confirm direction for inclusion/exclusion.
- Construction of the nursery garden where the existing disused pool is has been included. Note: Design is being finalized, with consideration currently being reviewed to determine the most cost-effective construction methodology.
- Construction of southern berm to follow the approved landscape plans along the boundary.
- Inclusion of the restoration of planting to the APZ as per VMP.

Make Good and Site Handover

- Install wayfinding and statutory signage to support emergency services, visitors, staff, and residents”.

4.0 OBSERVATIONS

The main component of the report is the photographic and written evidence within appendix 'B' of this report.

The issued USB flash drive contains the following files: -

- The photographic / written reports (PDF).
 - a. Also includes a 'Geotagged report' illustrating the approximate location of each photograph taken of the external areas.

- The photographs used in the report (JPG's).
 - a. The Jpeg photographs on the USB flash drive are 36 mega-pixels to allow for greater resolution if a photo needs to be enlarged and viewed in greater clarity.

Note: the report should only be used to identify a particular photograph, which may require greater inspection. If a photo is required to be viewed in greater clarity, the relevant photograph/s can then be sourced on the issued USB flash drive and enlarged.

The photographs recording the external areas have been “Geotagged”. To make use of this application, ensure that “Google Earth” has been installed on your computer. You will find the “Geotagged Report.kmz” file on the issued USB flash drive.

1. Open the “.kmz” file on the USB flash drive.
2. The application will launch in “Google Earth” (if installed on your computer).
3. You will note a series of numbered thumbnail photographs within and around the construction site. By clicking on a thumbnail photo the applicable photograph, taken in that approximate location will be revealed.

Note: this is an interactive file to be accessed on a computer via Google Earth and not from a visual interpretation of the screenshot/s of the ‘Geotagged Report/s’ on the following page/s.

The report does not allow for: -

- ❖ Faults to inaccessible parts of the adjoining properties / buildings.
- ❖ Faults concealed behind permanent wall cladding (i.e. timber paneling or floor coverings)
- ❖ Any testing.
- ❖ Arborist reporting.
- ❖ Geotechnical or subsurface investigations.
- ❖ Faults not apparent on a visual inspection.
- ❖ Faults apparent only in different environmental or weather conditions.
- ❖ Latent faults not apparent at the time of the inspection.
- ❖ Inspection of roof and sub floor voids or areas deemed dangerous to inspect.
- ❖ Pest inspection report.
- ❖ Inspection of Building services, plant and machinery.
- ❖ Requirements of the Building Code of Australia.
- ❖ Distribution of reports to parties other than our Client.

5.0 CONCLUSIONS

A record of the condition of the areas as of the 10th September 2024 has been presented. The findings are illustrated in the photographs bound within Appendix B of this report.

We suggest referring to the marked-up site plan within Appendix A of this report to reference which photographs record particular areas.

We also suggest using the “Find” operation in your PDF software to locate a particular room or named area.

The following items may be referred to should a need arise to review this report: -

1. Project North - the cardinal compass points referenced within the report have been taken from the issued site plan.
2. The photographs illustrated in the ‘geotagged report’ are those which the camera had contact with the ‘tagging satellite’. In some instances this contact can be lost through interference (electronic, magnetic, phone towers etc) and photos may not be tagged and illustrated within the report.
3. We suggest using the ‘Geotagged Report’ to source a photograph recording a particular area.

4. Besides using the 'Geotagged Report' to assist in the location of a particular photograph, we also suggest that you refer to the previous series of photographs in the report for the sequencing of recording areas.

5. Notable findings in the report include the following:-
 - a. Cracked, crazed and damaged asphalt road paving and hardstand;
 - b. Cracked and damaged kerb and gutters;
 - c. Cracked and damaged concrete road paving;
 - d. Silted-up strip drains.
 - e. Dislodged stones and sandstone flagging to retaining structures;
 - f. Overgrown vegetation along the hospital boundaries;
 - g. Damaged boundary walls common with the properties along the southern side of the Hospital.

6. At the time of the inspection, it was noted that there were major civil works occurring to the 'Bob Campbell Oval' to the south of the Hospital.

7. The terrain along the hospital's western boundary was very steep and access to the area was difficult and some of the area was recoded from a distance.

In the best interest of all parties associated with this development a declaration for signing has been prepared on the following page.

SIGN-OFF SHEET

I / we believe that the written and photographic report is a true record of the existing condition of the following properties / areas as of the 10th September 2024.

<p><u>Areas Surveyed:</u></p>	<ul style="list-style-type: none">  Greenwich Hospital - internal access roads.  River Road – Public domain – area adjacent to the substation works.  River Road – Public domain – area adjacent to the existing site access road.  St Vincents Road – Public domain – area adjacent to the existing site access road.  Boundary fence common with the residences along the western boundary (as seen from the site).  Boundary fence common with the residences along the southern boundary (as seen from the site).  Area of the existing roadway upgrade to the NW of ‘Pallister’.  Access road from River Road and St Vincents Road to the areas of work.
